LOCATION - POPULATION

1. LOCATION

Anderson is located in the East Central section of the state, 35 miles northeast of Indianapolis. Distances from Anderson to other major cities in the Midwest are:

Chicago, Illinois	195 miles
Cincinnati, Ohio	125 miles
Cleveland, Ohio	280 miles
Detroit, Michigan	250 miles
Indianapolis, Indiana	35 miles
Louisville, Kentucky	142 miles
Pittsburgh, Pennsylvania	330 miles
St. Louis, Missouri	277 miles

2. AREA

The area of Anderson within the present city limits is approximately 36 square miles.

3. CLIMATE-ALTITUDE

The mean temperature for Anderson is 51.6 degrees. Average rainfall for the area is 40.24 inches per year. The altitude of the city is 892 feet.

4. POPULATION

The population of the civil city is 67,366, which includes the annexed area. The trading population is estimated to be 150,000. The population for Madison County is 125,819. The population within a 35-mile radius is 356,000.

The percentage of nationalities in our population is:

White	- 90.292%
Negro	- 8.93 %
Foreign Born	- .778%

5. GOVERNMENT

Anderson's city government is the Mayor-Council type. There are nine members of the City Council and these officers, together with the City Clerk, City Controller, and City Judge, serve four-year terms.

THE NEW ANDERSON!

TAXES

6. CIVIL TAXES

The total tax rate payable in 1964 on each \$100 of assessed valuation within the corporate limits of Anderson is \$6.86, which is the fourth lowest tax rate in second class cities in Indiana. Valuation is estimated on 1/3 of present reproduction cost. Personal property valuation is also estimated on 1/3 of true value.

The tax rates in townships adjoining Anderson corporate limits are:

Anderson Township	\$5.28
Lafayette Township	3.84
Richland Township	3.60
Union Township	4.42

7. ASSESSED VALUATION

The 1964 assessed valuation of Anderson City is \$80,408,850 and for Madison County, \$194,985,465.

8. BONDED INDEBTEDNESS

The bonded indebtedness for the Civil City of Anderson, January 1, 1964, is \$456,000 and for the School City \$625,000. The outstanding Water Revenue Bonds, January 1, 1964, \$3,403,000, and Sewer Revenue Bonds, \$7,660,000.

9. TAX RATES OF INDIANA CITIES

The following is a comparison of the tax rates in all Indiana cities with a population of more than 35,000:

<u>City</u>	<u>1960 Population</u>	<u>1964 Tax Rate</u>
New Albany	37,812	\$ 6.22
Lafayette	42,330	6.42
East Chicago	57,669	6.54
Anderson	67,366*	6.86
Michigan City	36,653	6.86
Richmond	44,149	6.90

Indianapolis	476,258	8.952
Hammond	111,698	9.32
Gary	178,320	12.54

*Population of the incorporated City of Anderson, plus newly annexed area.

Basic provisions of the Indiana Unemployment Compensation Law include: (1) Private business and industrial employers having four or more persons in their employ, for parts of twenty or more weeks a year are subject; (2) the standard state payroll tax rate (paid exclusively by employers with no financial participation by employees) is 2.7 per cent of wages paid up to \$3,000 annually per employee; (3) through the maintenance of individual employer experience accounts in a pool-type of fund with experience rating, an employer with stabilized employment eventually may reduce his state tax rate to .1 of 1 per cent (plus the .4 of 1 per cent payable federally); (4) the maximum state rate applicable, to an employer whose reserve account is less than 1 per cent of preceding three-year taxable payroll, is the standard 2.7 per cent; (5) benefits payable to unemployed workers are controlled directly, through a simplified formula, by each worker's earnings and amount approximately to weekly benefits of one-half of previous weekly earnings, within the maximum range of \$36 a week for twenty-six weeks; (6) benefits chargeable to an employer may not exceed 25 per cent of the former employee's wage credits; and (7) employers pay the taxes and submit payroll reports listing earnings of individual employees quarterly.

Basic disqualification provisions are: When a person is disqualified for (1) leaving work voluntarily without good cause (2) being discharged for misconduct in connection with work, or (3) refusing without good cause an offer of suitable work, he remains ineligible for benefits until he has earned at least 10 times his weekly benefit amount in subsequent employment and he thereafter becomes unemployed under circumstances not involving a disqualification.

The successive steps of tax reductions which may be earned by an employer are: (1) the rate drops to 2 per cent when his experience account reaches 1 per cent of his previous three years' payroll; (2) drops to 1.5 per cent when the account reaches 1.5 per cent of the previous three years' payroll; (3) drops to 1 per cent when the account reaches 2 per cent of the previous three years' payroll; (4) drops to .5 of 1 per cent when the balance in his account reaches 2.5 per cent of the previous three years' payroll; and (5) drops to the minimum of .1 of 1 per cent when the balance reaches 3 per cent of the three-year payroll. All of an employer's state tax is credited to his experience account and all benefits paid to his former employees by reason of their earnings from him are charged against the account. Benefits always are payable on the basis of an individual recipients's eligibility, regardless of whether the former employer's experience account is exhausted.

The experience rating features of the program went into effect in 1940. Through the years, the average unemployment compensation tax rate in Indiana has ranked in the lower bracket of such average rates in the industrial states of the country. In 1962, the average rate in Indiana was 1.3 per cent, as compared with the national average of 2.4 per

cent of all states. Interest received from the Federal Government on Indiana reserve funds is credited to individual employer accounts. Employers have the privilege of making voluntary contributions in order to bring their experience accounts up to levels qualifying them for reduced rates. In these and other respects, experience rating features of the Indiana Unemployment Compensation program are more favorable than those of most other states.

Indiana Sales and Income Taxes

INDIANA MANUFACTURERS are subject to the Indiana 2 per cent general Sales and Use Tax, which is a part of the Indiana gross income tax law. In general, taxable sales are those sales constituting "selling at retail" under the gross income tax, and include the sale of tangible personal property, utility sales and the furnishing of transient lodgings for periods of less than 30 days. . . Exemptions from the tax include sales of manufacturing machinery, tools and equipment to be directly used by the purchaser in the direct production, manufacture, fabrication, assembly, extraction, mining, processing, refining or finishing of tangible personal property; sales of public utilities when predominantly used for manufacturing; and sales of tangible personal property, or services directly consumed in the rendering of public transportation of persons or property. Those sales constituting "wholesale sales" under the gross income tax also are exempt from the sales tax, as are sales of nonreturnable wrapping materials and containers used for selling other goods and sales of returnable containers. . . Those engaged in selling at retail are required to register with the State at a fee of \$3.50 per year for each place of business. For the purpose of issuance of exemption certificates, manufacturers and wholesalers are also required to register.

Incorporated manufacturers are subject to the Indiana Gross Income Tax or the Adjusted Gross Income Tax, whichever produces the greater tax after computing both. Unincorporated manufacturers are subject to the adjusted gross income tax, and are not subject to the gross income tax. For corporations, adjusted gross income under the adjusted gross tax is that which is defined as taxable income under section 63 of the federal I. R. C. plus an amount equal to deductions allowed under the I. R. C. for charitable contributions and also an amount equal to deductions allowed for state and local taxes. Adjusted gross income for unincorporated individual taxpayers is gross income less certain costs pertaining to the cost of doing business and costs connected with income-producing property. The rate of the adjusted gross income tax for both incorporated and unincorporated taxpayers is 2 per cent. Apportionment of income to, Indiana is based on 1/3 sales, 1/3 property and 1/3 payroll for corporations and nonresidents.

Indiana manufacturers, under the State Gross Income Tax, are subject to a tax of 1/2 of 1 per cent on their gross receipts from wholesale sales of goods (for resale, processing, etc.)

and sales at retail not in interstate or foreign commerce, and to a rate of 2 per cent on all other receipts derived in Indiana. Receipts of Indiana businesses from sales of goods in interstate or foreign commerce are not taxable under the gross income tax.

The rate on gross receipts of retailers including separately stated charges for services such as alteration, modification and finishing performed prior to delivery to purchaser is 1/2 of 1 per cent and the levy on the gross earnings of individuals from salaries, wages, fees and commissions and the gross receipts derived in the state from virtually all business transactions other than wholesaling and retailing is at the rate of 2 per cent. Exemptions of \$1,000 in gross receipts annually are granted to all taxpayers.

Miscellaneous Taxes

MANUFACTURERS, in common with all other classes of taxpayers, are subject to taxation of intangibles held by them and listed and traded in on any recognized market at the rate of 5 cents for \$20 of market value as determined by the county assessing officials or the State Revenue Department. For the purpose of determining value for all tax due intangibles will have a value equal to their market value on the last market day of December following the date on which the intangible was acquired and on the last market day of December of each succeeding year.

Other intangibles such as notes, mortgages, conditional sales contracts, etc. are assigned a value for intangible tax purposes equal to their value as of the day the tax accrues.

Property Taxes

AS INDICATED, ALL tangible property (land, buildings and personal property) is subject to taxation at rates varying according to the needs of the local taxing units and their assessed valuation. Land and buildings are assessed at a maximum of 33 1/3% of true cash value as of March 1, 1962. (a 1963 study of the State Board of Tax Commissioners showed a state average of assessed valuation of land and buildings to selling price of 26.4%.) Personal property (equipment, raw materials, inventories, etc.) is assessed annually at 33 1/3% of true cash value.

Indiana has a modern, uniform system for real estate assessment incorporated into a real estate assessment guide. Many counties utilized the services of professional appraisers in making the general reassessment of real estate required in 1961. Indiana also has a modern, uniform system for personal property assessment as a result of legislation adopted in 1959 and 1961, which revised Indiana's assessment laws and directed that a personal property assessment manual be prepared for the use of local assessing officials in making personal property assessments in 1962 and each year thereafter.

In accordance with an enactment of the 1963 General Assembly, personal property of nonresidents of the state shipped into this state and placed in the original package in a public warehouse for the purpose of transshipment to an out-of-state or within-the-state destination and so designated on the original bill of lading, or personal property of residents or nonresidents of the state placed in the original package in a public warehouse for the purpose of transshipment to an out-of-state destination and so designated on the original bill of lading, shall not, while so in the original package in such warehouse, be subject to personal property taxation.

Corporations

FEES FOR FILING with Secretary of State of the articles of incorporation of any domestic corporation for profit are \$20 for the first 1,000 shares and 2¢ per share for any shares over 1,000. For filing a certificate of increase of capital stock, the rate is 2¢ per share where the increase is more than 1,000 shares, with a minimum fee of \$15. The fee for filing of an application of a foreign corporation for profit is \$20 for 1,000 shares or less represented in this state and 2¢ per share for any shares over 1,000. The fee for filing of articles of incorporation of a non-profit corporation is \$10. In addition to the charges outlined above, the Secretary of State is required to charge \$2.00 for each certificate issued by him and \$1.00 for each impression of the seal of Indiana affixed to such certificates.

The fee for filing of annual reports of corporations for profit is \$2.00 and for not-for-profit corporations \$1.00.

Further information on taxes and other matters of interest to business available from the Indiana State Chamber of Commerce and from the Anderson Chamber of Commerce.

INDUSTRIAL

10. INDUSTRY

Anderson is noted for its wealth of industrial activity. There is a broad field of manufacturing in its 87 plants. Some of Anderson's principal products are:

Automobile electrical equipment - automobile lighting equipment - fire trucks - recreation equipment - laundry and dry cleaning equipment - wall and floor tile - files and rasps - steel and strips - flat wire - casting - regulators - pumps - glass machinery - governors - chokes - jet engine components - corrugated paper boxes - tools - concrete products - meat packers - milk and dairy products.

The labor force in Anderson is supplied by the city and adjoining areas within a 35-mile radius, with a total population of 356,000. Approximately 25,000 are normally employed in local industries. High schools in Madison County graduate over 1,000 students per year. This broad field of employment gives the community a sound economic base and affords good industrial diversification.

Wage rates are generally subject to negotiation and would vary from, as follows:

Unskilled	- \$1.50 to \$2.00
Semi-skilled	- \$1.75 to \$2.50
Skilled	- \$2.50 to \$3.25

The industrial payroll of Anderson approximates \$140,000, 000. An attractive labor market has resulted in making Anderson a profitable area for industrial expansion.

11. TOTAL EMPLOYMENT - PAYROLL

The average total employment in all businesses in the Anderson area is 40,645 with an annual payroll of approximately \$223,842,000.

SUMMARY OF
LABOR LAWS OF INDIANA

Compiled by

Indiana State Chamber of Commerce

Arbitration - Public Utilities

Statute prohibits strikes and lockouts in public utilities and provides procedures for conciliation and arbitration to settle disputes between public utility employers and their employees and penalties for violations of any provision of the act. (This law is similar to a Wisconsin law held by U. S. Supreme Court to be inoperative because it was legislation in a field "pre-empted" by the federal government in the Taft-Hartley Act. There has been no Supreme Court test of the Indiana law.)

Workmen's Compensation and Occupational Diseases Laws

The Indiana laws providing benefits to workers disabled by industrial accidents or diseases are elective rather than compulsory except as to the state and its political subdivisions, municipal corporations and mine operators. Employers and employees are presumed to have elected to come under the acts unless notice to the contrary is given the Industrial Board in writing thirty days prior to any accident. Employers electing not to come under the acts are denied the common law defenses of contributory negligence, negligence of fellow servant and assumption of risk if sued by an employee for injury. Such defenses are available to the employer when the employee alone elects not to come under the acts. Casual laborers and agricultural, domestic and railroad employees are excepted from the acts.

Employer's liability is required to be underwritten by private insurance carriers, excepting those employers who desire to and can establish adequate financial responsibility and are approved as self-insurers by the Industrial Board.

Benefits paid to injured or disabled employees are controlled by a formula fixing the maximum weekly benefit amount at 60% of average weekly wages not to exceed \$70. The maximum weekly benefit therefore is \$42.00. Maximum total benefits for temporary or permanent total disability are limited to 500 weeks, or \$16,500, whichever is the lesser. However, under the Workmen's Compensation Law an employee who is

totally disabled and has received the maximum award may apply for additional benefits which will be paid from a Second Injury Fund, if the Industrial Board finds that the individual is unable to earn a living at gainful employment. Awards for such additional benefits may not exceed 150 weeks but may be renewed for additional periods not to exceed 150 weeks until the injured employee dies or becomes able to earn a living at gainful employment.

The Industrial Board administers the Workmen's Compensation and Occupational Diseases Laws. It consists of a chairman and five members. The members spend most of their time hearing and deciding disputed claims throughout the state. Any decision of a member may be appealed to the full board. The chairman is the chief administrative officer. All agreements between employers and employees for compensation must be approved by the board. Awards of the Industrial Board are subject to judicial review by the Appellate Court.

Civil Rights Act

Provides for the elimination of discrimination in employment because of race, creed, color, national origin or ancestry. Administered by a five-member Civil Rights Commission and full-time secretary-director. Commission has power to issue cease and desist orders, subject to judicial review...court enforcement may be obtained. All complaints must be in writing and signed under oath. Act applies to employers of six or more persons. Commission hearings subject to state law governing hearings. The act also provides for equal opportunities in education and access to public conveniences and accommodations.

Right-to-Work Law

Prohibits membership or non-membership in a labor union being made a condition of obtaining or retaining employment. Contracts or understandings contrary to the law are void as against public policy. Anyone violating the provisions of the act is subject to both civil and criminal liability.

Injunctions In Labor Disputes

A law enacted in 1933 regulates the jurisdiction of courts to issue injunctions in cases of labor disputes, and provides legal and procedural requirements for their issuance.

The law also provides that contracts or agreements not to join or to withdraw from membership in a labor union as a condition of employment are void as contrary to public policy.

Voting

Employers are entitled to four hours off to vote during any general, state, county or city election. In the absence of

an agreement to the contrary, the employee is entitled to be off during the first four hours the polls are open. There is no requirement that the employee be paid for time off to vote. The usual practice is for employers and employees to agree among themselves as to voting time.

Importing Alien Laborers

Contracts or agreements for the importing of non-resident alien laborers are void and those engaging in such contracts or agreements are subject to a fine of not more than \$5,000.

Political Contributions

Labor unions and corporations are prohibited from contributing funds or services to any political party or candidate or for other political purposes.

Child Labor

No child may be employed in any job that interferes with his schooling. Children under 14 may be employed in agriculture, domestic service, as a caddie or carrying newspapers outside of school hours. Boys 14 to 16 and girls 14 to 18 may not be employed more than eight hours a day or 48 hours a week. Children under 16 may not be employed in mines or in the operation of moving machinery, or as attendants in hotels, theatres or bowling alleys. Children under 18 may not be employed in mines or in the oiling or cleaning of moving machinery, operation of emery wheels, the storage or manufacture of explosives or the manufacture, wrapping, bottling or packing of malt or alcoholic beverages. No minor may be employed in a pool or billiard room. The Vocational Education Act permits children under 18 to be employed in some of the prohibited occupations under cooperative training programs arranged between school authorities and employers.

Children under 16 are not permitted to be employed before 6:00 a.m. or after 7:00 p.m. No female under 18 may be employed in any occupation which requires constant standing. All children under 18 must obtain work permits from the proper school authorities before they can be employed in occupations other than carrying newspapers, performing domestic services, serving as farm labor or acting as a golf caddie.

Mines and Mining

Indiana mine laws are comprehensive, particularly with respect to the requirement of safeguards for the prevention of accidents and providing penalties for violations. These laws may be found in Burns Statutes, Vol. 8, Sections 46-101 to 46-2711 inclusive.

Women

There are no employment restrictions upon women except that they cannot be employed in a mine.

Unions

Constitutions and by-laws of labor unions are valid contracts between the unions and their memberships and may be enforced in the courts after administrative remedies provided by the union have been exhausted.

Labels, marks, stamps or devices of unions to indicate that the article has been made with union labor are protected by law and anyone using such insignia without the consent of the union is subject to imprisonment of not less than one year nor more than three years, or a fine not exceeding \$2,000 to which may be added a jail sentence not exceeding six months.

Wages

Wages in excess of \$15.00 a week are subject to garnishment. However, 90 per cent of the amount exceeding \$15.00 is exempt from levy and execution.

Employers engaged in mining, quarrying or manufacturing, if requested, must pay their employees weekly; other types of employers, twice a month.

Contractors engaged in construction work for the State (Indiana State Highway Commission excepted), any of its political subdivisions or a municipal corporation, are required to pay the prevailing wage rate of the immediate locality for each class of work. The prevailing wage rates are established by a three-member board -- one member is selected by the agency awarding the contract, one member by the President of the Indiana State AFL-CIO, and the third member is selected by the Governor.

Employees may assign their wages if it is agreeable to the employer, but such an assignment must be in writing and revokable at will. If the employee is a married man he cannot assign his wages to a wage broker without the consent of his wife.

An employee who has been separated from his employment by the employer is entitled to any unpaid wages within 24 hours after separation. Employees who voluntarily leave employment or become unemployed because of an industrial dispute need not be paid their wages until the next regular pay day.

Wage claims not exceeding \$100 may be assigned to the Commissioner of Labor for collection. If, in the opinion of the Commissioner, the wage claim is valid, it is his duty to take the necessary steps to effect collection, including court action.

Industrial Codes

Indiana has 13 codes covering a wide range of subjects in health and safety from general rules relating to housekeeping and

sanitation in industrial establishments to specific rules relating to the rubber and plastic industries; gypsum mining; construction; elevator installation, operation, maintenance and inspection.

Indiana Does NOT Have:

1. Any law requiring that women be paid the same wage rates as men for so-called "comparable" work.
2. A minimum-wage and maximum-hour law.
3. A state labor relations act.
4. A law regulating welfare funds.

The Indiana Unemployment Compensation Law

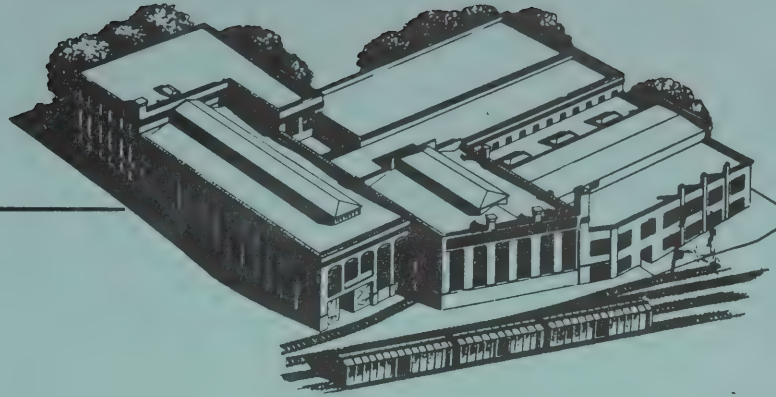

Basic provisions of the Indiana Unemployment Compensation Law include: (1) Private business and industrial employers having four or more persons in their employ, for parts of twenty or more weeks a year are subject; (2) the standard state payroll tax rate (paid exclusively by employers with no financial participation by employees) is 2.7 per cent of wages paid up to \$3,000 annually per employee; (3) through the maintenance of individual employer experience accounts in a pool-type of fund with experience rating, an employer with stabilized employment eventually may reduce his state tax rate to .1 of 1 per cent; (4) the maximum state rate, applicable to an employer whose reserve account is exhausted, is the standard 2.7 per cent; (5) benefits payable to unemployed workers are controlled directly, through a simplified formula, which provides a weekly benefit amount approximately one-half of average weekly earnings, within the maximum range of \$36 a week for twenty-six weeks; (6) benefits chargeable to an employer may not exceed 25 per cent of the former employee's wage credits, and (7) employers pay the taxes and submit payroll reports listing earnings of individual employees quarterly.

Payments received or receivable by an individual under a private unemployment pay plan of his employer or former employer are not deductible from state benefits otherwise payable.

The disqualification provisions are: A person is disqualified from benefits for (1) leaving work voluntarily without good cause, (2) being discharged for misconduct in connection with work, or (3) refusing without good cause an offer of suitable work. The person remains ineligible for benefits until he has earned at least ten times his weekly benefit amount in subsequent employment and he thereafter becomes unemployed under circumstances not involving a disqualification.

All of an employer's state tax is credited to his experience account and all benefits paid to his former employees by reason of their earnings from him are charged against the account.

This brief summary contains the more important Indiana laws affecting employer-employee relations. For compliance purposes or detailed information, reference should be made to the complete texts of the laws which may be found in the 1963-64 edition of the State Chamber publication, "Labor Laws of Indiana".

AGRICULTURE - MADISON COUNTY

12. AGRICULTURE

The total population for Madison County, estimated for 1964 is 129,593. The official 1960 population is listed by the U. S. Department of Commerce, Bureau of the Census, as 125,819. The population per cent by residence is:

Urban	- 57.9%
Rural Non-Farm	- 32.8%
Rural Farm	- 9.3%

There are approximately 1,863 persons employed in agriculture in the county.

The land area includes 289,920 acres of which approximately 85 per cent is in farm land, totaling 246,705 acres.

There are 2,059 farms in Madison County, producing \$19,302,700 in farm products, including both crops and livestock.

Principal crops raised in Madison County include the following:

Corn	- 75,288 acres
Wheat	- 19,512 acres
Soy Beans	- 45,271 acres
Oats	- 17,763 acres
Hay	- 15,907 acres

The value of livestock on these farms is approximately \$6,000,000.

GRANT COUNTY

TRANSPORTATION

13. RAILROADS

New York Central Railroad serves Anderson east and west, with direct connections to Detroit, Cleveland, New York, and St. Louis.

Pennsylvania Railroad serves Anderson north and south on its Cincinnati to Chicago Division.

Central Indiana Railroad serves Anderson and other communities within the state

14. TRUCKING

There are approximately 26 trucking companies regularly serving our city, operating from fourteen truck terminals, connecting with all major truck lines throughout the United States.

15. BUS

Anderson is served by several large bus companies, providing facilities to and from important cities in the midwest.

16. AIR

The Anderson Municipal Airport, with an all-weather, lighted runway, 4,300 feet in length, contains 350 acres and is located three miles east of the city. This municipally-owned airport provides space for private use, storage of planes and charter service. Commercial service is available within 18 miles.

17. HIGHWAYS

Anderson is located on State Highways 67, 9, 32 and 109. The new designated Federal Limited-Access, four-lane highway 69, from Indianapolis, via Anderson and Fort Wayne to the North Indiana Toll Road, will provide excellent transportation facilities.

18. CITY STREETS

Anderson City has 162 miles of streets, 156 miles of which are paved. There are also 270 miles of paved sidewalks and 65 miles of paved alleys.

UTILITIES

19. ELECTRIC POWER

The City of Anderson owns and operates its own electric power plant and distribution system with 85 per cent of the power being purchased from Indiana-Michigan Electric Company, a subsidiary of the American Electric Power Company, General Motors Corporation, employing approximately 20,000, is directly supplied by the Indiana-Michigan Company.

Number of electric meters (August, 1964) is 27,389.

Domestic Residential

Rate.

For the first 30 kwhrs used per month 5.0 cents per kwhr

For the next 40 kwhrs used per month 4.0 cents per kwhr

19. ELECTRIC POWER (Continued)

Rate.

Kwhrs equal to next 150 times kw of monthly billing demand:

First 3,000 kwhrs. 2.4 cents per kwhr
Over 3,000 kwhrs 2.0 cents per kwhr

Kwhrs in excess of 200 times kw of monthly billing demand: 1.0 cents per kwhr

This tariff is subject to a minimum charge, monthly, of \$1.00.

Industrial - 50 kva capacity

Rate.

Primary portion: kwhrs equal to the first 30 times the kva of monthly billing demand - 4.00 cents per kwhr

Secondary portion: kwhrs equal to the next 170 times the kva of monthly billing demand, as follows:

For the first 2,500 kwhrs. . .3.00 cents per kwhr
For the next 7,500 kwhrs . . .1.90 cents per kwhr
For the next 90,000 kwhrs. . .1.30 cents per kwhr
For the next 200,000 kwhrs . .1.25 cents per kwhr
For all over 300,000 kwhrs . .1.10 cents per kwhr

Excess portion: kwhrs in excess of 200 times the kva of monthly billing demand - 0.60 cents per kwhr

Minimum Charge.

This tariff is subject to a minimum charge monthly of \$1.20 per kva of monthly billing demand. The minimum monthly charge so determined shall be subject to: (a) adjustments as determined under the Fuel Clause; (b) credits as determined under the clause entitled "Equipment Supplied By Customer".

Industrial - 1,000 kva capacity

Rate.

Primary portion: first 1,000 kva of monthly billing demand: \$3,500.00

Next 1,500 kva of monthly billing demand - \$3.50 per kva

All over 2,500 kva monthly billing demand - \$3.10 per kva

The customer shall be allowed 255 kwhrs for each kva of monthly billing so billed.

Secondary portion: energy in excess of 255 kwhrs per kva of monthly billing demand - \$0.00365 per kwhr.

Delivery Voltage.

The rate set forth in the preceding paragraph is based upon the delivery and measurement of energy at primary voltage, from lines operated at approximately 33,000 volts or over, the customer supplying the complete substation equipment necessary to take service at the said primary voltage.

19. ELECTRIC POWER (Continued)

Industrial

Delivery Voltage (Continued)

Energy may be delivered hereunder at the primary voltage of distribution lines operated at less than 33,000 volts or may be delivered through a separate company-owned substation stepping down from a voltage of 33,000 volts or over to not less than 2,300 volts, in which event the primary portion of rate will be increased \$170 for the first 1,000 kva monthly billing demand and \$.17 per kva for monthly billing demands in excess of 1,000 kva.

Minimum Charge.

This tariff is subject to a minimum charge monthly equal to the primary portion of the rate set forth above. The minimum monthly charge, so determined, shall be subject to: (a) adjustments as determined under the Power Factor Clause; (b) adjustments as determined under the Fuel Clause.

20. GAS

Gas is supplied to this area by the Central Indiana Gas Company, the primary source of which is the Panhandle Eastern Pipeline Company. Number of gas meters (August, 1964) is 22,298.

Private Fire Hydrants (first hydrant) - \$112.00

Each Additional Fire Hydrant - \$ 8.60

21. WATER - SEWAGE (Continued)

The sanitation system includes a disposal plant, with 104 miles of sewers.

The sewage rates are based on the amount of water used, as follows:

First	1,000 Cu. Ft. water used.	\$.064
Next	2,000 Cu. Ft. water used.055
Next	3,000 Cu. Ft. water used.045
Next	6,000 Cu. Ft. water used.035
Next	18,000 Cu. Ft. water used.030
Next	20,000 Cu. Ft. water used.028
Next	50,000 Cu. Ft. water used.025
All over	100,000 Cu. Ft. water used.022

SAFETY

22. POLICE DEPARTMENT

The Anderson City Police Department has a force of 82 men. The Department has 20 pieces of equipment, including radio-equipped cars and motorcycles.

23. FIRE DEPARTMENT

The Fire Department employs 96 men. The Department operates eight fire stations, with sixteen pieces of equipment, including aerial and pumper trucks, Chief and Assistant Chief cars, Fire Prevention Bureau cars, and rescue units.

24. FIRE INSURANCE

Anderson is rated in Class 5 of the Indiana Rating Bureau, which affects our fire insurance rates favorably.

EDUCATION

25. SCHOOLS

The educational facilities in our community are rated among the best in the State of Indiana. The education system in greater Anderson includes the following facilities:

- 2 public high schools
- 2 parochial high schools
- 3 public junior high schools
- 21 public grade schools
- 4 parochial grade schools
- 1 public school for exceptional children
- 1 private school for exceptional children

The public school system includes 668 teachers, with an enrollment of 16,751. Parochial schools include 45 teachers, with an enrollment of 1,277.

All grade schools provide kindergartens for pre-school age children.

High schools offer vocational and adult training classes for vocational training and apprenticeship in industry.

Athletic facilities include gymnasiums at all high schools and two lighted football fields. The new high school athletic facility, the "Wigwam", with a seating capacity of 9,300, is one of the largest high school gymnasiums in the nation and provides the most modern recreational facilities. The facility may be used as a civic auditorium and includes a swimming pool.

26. COLLEGES

Anderson College, with an enrollment of 1,250, offers higher educational opportunities in Liberal Arts and Theology. The accredited college is expanding rapidly in both physical plan and curriculum.

Anderson Business College is available for business training.

27. LIBRARIES

The Anderson Carnegie Public Library, and stations, containing 148,041 volumes, has served the public since 1891.

The Anderson College C. E. Wilson Library contains 49,000 volumes.

PUBLIC SERVICES

29. FINANCIAL INSTITUTIONS

Anderson has two state banks with seven branch banks and one branch of a national bank with resources of \$73,750,000. Anderson also has two building and loan associations with resources of \$99,380,000; and twelve small loan agencies.

Bank clearings for the last 12-month period totalled \$942,617,205.

30. CHURCHES

There are approximately 65 churches of many denominations serving the people of Anderson. The Church of God maintains its international offices in this city. Their International Convention, held each summer, is attended by 20,000 people from all parts of the world. Several of the churches have expanded their facilities because of the increase in their congregations.

31. HOSPITALS

Saint John's Hickey Memorial Hospital and the new Community Hospital serving the Anderson area, have available 409 beds.

32. RECREATION

Few communities in the nation can equal Anderson for its variety of recreational attractions. The city provides 14 parks, covering a total of 210 acres.

Anderson has four 18-hole golf courses. Three are private clubs and one is municipal.

The city also has two outdoor swimming pools and the Y.M.C.A. and Y.W.C.A. have excellent indoor pools that are available the year round.

Commercial facilities for recreation include one of the nation's finest midget auto race tracks, excellent theatres, and bowling alleys. The "Little 500", an annual auto race, attracts nation-wide attendance. Races are held throughout the racing season.

There are many local activities, including Girl Scouts and Boy Scouts, the Little League and Babe Ruth baseball, that provide recreation and training for the young people.

The Y.W.C.A. offers memberships in Y-Teen Clubs to girls from the seventh grade through high school and many other activities for adult members.

PUBLIC SERVICES (Continued)

32. RECREATION (Continued)

The Urban League, a community center, provides recreation facilities and services for Negro population.

The Y.M.C.A., with a total membership of 4,800, provides recreation training and facilities for children and adults of the community.

33. COMMUNICATIONS

Newspapers

There are two daily newspapers, the morning "Anderson Herald" and the afternoon "Daily Bulletin", with a Sunday edition of the "Anderson Herald". Total circulation is over 40,000.

Radio Stations

Radio Stations WHBU and WHUT provide facilities for a large area.

Telephones

The number of telephones in use in the Anderson area (August, 1964) is 38,941.

Wire Service

Western Union, which operates 24 hours daily.

34. SERVICE CLUBS

Twelve service clubs, including two Kiwanis, two Lions, two Exchange, three Optimist, and one each Rotary, Sertoma and Jaycees, meet weekly.

There are 85 fraternal organizations in the community.
